

SHAIK JAFER ALI

Full-Stack Developer • DevOps Engineer • React.js & Next.js Specialist

skjaferali8@gmail.com | +91-9553049011 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Bengaluru, India

PROFESSIONAL SUMMARY

Results-driven Full-Stack Developer with 1.5+ years of hands-on experience building and automating production-grade web applications at Physics Wallah — one of India's leading EdTech unicorns. Proficient in React.js, Next.js, Node.js, Express.js, MongoDB, and cloud/DevOps tools including AWS, Docker, Jenkins, and Ansible. Delivered measurable results: 200ms reduction in page load time, 40% improvement in product pipeline efficiency, and 18% faster ticket resolution. Meta Advanced React certified and AWS Cloud Essentials certified. Actively seeking a Full-Stack or Software Developer role to deliver impactful, scalable solutions.

TECHNICAL SKILLS

Languages:	JavaScript (ES6+), Java, HTML5, CSS3
Frontend:	React.js, Next.js, Redux, REST API Integration, Responsive Design
Backend:	Node.js, Express.js, RESTful APIs, JWT Authentication
Databases:	MongoDB (Mongoose), MySQL, NoSQL Design
DevOps/Cloud:	AWS (EC2, S3), Docker, Jenkins, Ansible, CI/CD Pipelines
Automation:	Selenium WebDriver, N8N Workflow Automation
Tools:	Git, GitHub, Postman, JIRA, VS Code

PROFESSIONAL EXPERIENCE

Associate Developer – Automation | PW (Physics Wallah)

Dec 2024 – Present | Bengaluru

- Architected and shipped an internal React.js + Node.js web application that reduced page load runtime by 200ms, directly improving developer productivity across multiple product teams.
- Led automation initiatives using Selenium and N8N that improved overall product pipeline efficiency by 40%, eliminating repetitive manual testing and deployment tasks.
- Collaborated cross-functionally with product managers and QA engineers to automate regression test suites, reducing release cycle time significantly.
- Maintained Docker-based CI/CD pipelines with Jenkins, ensuring zero-downtime deployments for internal tools used daily by 500+ employees.

Software Development Intern | Programming Pathshala

Apr 2023 – Aug 2023 | Remote

- Developed student inquiry-handling features using React.js for the KTS platform, enabling 18% faster ticket resolution for 1,000+ students.
- Containerized the application with Docker and deployed to AWS EC2, improving traffic control and cutting manual deployment effort by 22%.
- Managed sprint planning and issue tracking in JIRA within a 6-person agile team under mentorship of senior engineers.

PROJECTS

HealthBooker – Doctor Appointment Booking Platform | *React.js, Next.js, Node.js, Express.js, MongoDB, Docker, Jenkins, AWS* | *Jul 2023 – Feb 2024*

- Designed and developed a comprehensive full-stack appointment booking platform featuring real-time scheduling and JWT authentication, enabling 500+ monthly appointments without system downtime.
- Integrated Jenkins CI/CD pipeline with Docker, reducing deployment time by 35% and ensuring consistent dev/production environment parity.
- Deployed on AWS EC2 + S3 with load balancing and auto-scaling, reducing infrastructure management effort by 16%.
- Implemented fully responsive UI with React.js ensuring 100% compatibility across desktop and mobile devices.

EDUCATION

B.Tech in Computer Science & Engineering *Jun 2021 – May 2025*

Lovely Professional University, Jalandhar
Top 10% of graduating class | Relevant: Full-Stack Dev, DevOps, Cloud, DSA, OS, Networks

CERTIFICATIONS

- AWS Cloud Essentials – Amazon Web Services (Jan 2025)
- Server-Side Development with Node.js – NIIT (Apr 2024)
- Advanced React Development – Meta (May 2024)
- IBM Certified – Operating Systems Fundamentals

ACHIEVEMENTS & LEADERSHIP

- Winner – CODE-A-FEST X Hackathon: built and presented a full-stack solution under 24 hours competing against 50+ teams.
- Filed Patent on Non-Newtonian Fluid Speed Breaker System — interdisciplinary innovation bridging software and physical engineering.
- Authored peer-reviewed article on Cloud Resource Management in Computer Networks; findings taught to 20+ students at university workshop.
- Workshop Facilitator – led hands-on Cloud Computing sessions for junior students at Lovely Professional University.
